

**C A L S T O N E**

*Introducing* **California Flagstone**

**ENJOY THE NATURAL LOOK OF  
FLAGSTONE WITHOUT THE PRICE.**

**California Flagstone was developed to capture the look of real flagstone and be installed like a standard paving stone.**

**Now you can have this natural flagstone look in your patio, sidewalk, pathway, and even your driveway without the high installation cost of real flagstone. Imagine, having a flagstone driveway or back yard patio without the price.**

*Standard*  
Width: 225 mm  
Length: 325"  
Height: 80 mm

- Weight approx 30 pounds
- 90 units per pallet
- 2460 pounds per pallet
- 80 millimeter tall
- 75 square feet per pallet
- 1.2 stones per square foot
- Current available color: Buckskin

*Lay Pattern*

The antiqued California Flagstone comes in a 9 piece modular system. We recommend a polymeric joint sand to be used with this product.

This stone series can also be installed as a permeable surface with an open area of 5 percent.
